Changes and Additions

Changes and additions are as follows.

X-T100 Owner's Manual:  52

Ver. 2.00

SR⁺ ADVANCED SR AUTO

A "bright mode" icon is displayed when the mode dial is rotated to SR⁺.

Tap the icon to enable "bright mode" for brighter, more vivid photos.

"Bright mode" enabled

SP SCENE POSITION /  /  /  / 

Rotating the mode dial to  selects  NIGHT+ mode.

The following scenes can be selected directly using the mode dial:

| Scene | Description |
|--|--|
|  PORTRAIT ENHANCER () | Choose for a smooth skin effect when shooting portraits. If ON is selected for TOUCH SCREEN SETTING > TOUCH SCREEN ON/OFF , you can choose the portrait enhancement level using touch controls. |
|  LANDSCAPE | Choose for daylight shots of buildings and landscapes. |
|  SPORT | Choose when photographing moving subjects. |
|  NIGHT+ () | The camera automatically optimizes brightness and saturation for night scenes, including shots with portrait subjects. |

3 Highlight the desired scene.

| Scene | Description |
|--|--|
|  PORTRAIT | Choose for portraits. |
|  NIGHT | Choose for poorly lit twilight or night scenes. |
|  NIGHT (TRIPOD) | Choose this mode for slow shutter speeds when shooting at night. |
|  FIREWORKS | Slow shutter speeds are used to capture the expanding burst of light from a firework. |
|  SUNSET | Choose this mode to record the vivid colors in sunrises and sunsets. |
|  SNOW | Choose for crisp, clear shots that capture the brightness of scenes dominated by shining white snow. |
|  BEACH | Choose for crisp, clear shots that capture the brightness of sunlit beaches. |
|  PARTY | Capture indoor background lighting under low-light conditions. |
|  FLOWER | Effective for taking more vivid shots of flowers. |
|  TEXT | Take clear pictures of text or drawings in print. |
|  MULTIPLE EXPOSURE | Create a photograph that combines two exposures. |

4 Press **MENU/OK** to select the highlighted scene.
